

City Council Agenda Summary

Meeting Date: July 9, 2013
Item No: Addendum
Department: Electric
Issue: Consider accepting a customer transfer from Appalachian Power Company of customers located in the Forest Park Subdivision.

Summary: Appalachian Power Company (APCo) presently serves 14 customers in the Forest Park Section consisting of 12 residential customers on Valley View Drive, one residential customer on Mulberry Road and the Forest Park Country Club.

APCo is requesting the City to serve these customers with electric power due to the customers being in close proximity to our existing lines, providing the City ease of access to the potential customer base at a minimal line construction cost to the City.

The revenue generated from the acquisition of these 14 customers adequately offsets the line construction cost in the first year.

Attachments: None

Recommendations: Motion to approve the Appalachian Power Company customer transfer to the City's electric system.
