These are the specifications the State of Virginia solicited for pricing and awarded for the Harley-Davidson motorcycle, as described.

Technical Specifications:

The motorcycle shall be the manufacturer's "Police" model and shall meet all requirements of these min. specifications, and must include all standard features for the model number indicated unless deleted or changed by these specifications. It shall exhibit

exceptional handling, performance, stability and maneuverability. All options or accessories installed upon the motorcycle shall be engineered, designed, or certified by the manufacturer of the motorcycle to be compatible with all components, give dependable service, and not degrade the handling, performance, safety or appearance of the motorcycle. The term “heavy duty” as used in these specifications shall mean that the item to which the term is applied shall exceed the usual quality, quantity, or capacity supplied with standard production motorcycles.

All components, unless otherwise required by these specifications, shall be the standard or optional equipment specifically advertised by the manufacturer and installed by the manufacturer or contractor for the police motorcycle which the bidder proposes to furnish. The only source of information in determining whether or not the equipment is specifically advertised for the motorcycle being offered shall be the manufacturer’s published police motorcycle literature. NOTE: Not all equipment required by this specification is factory installed. Certain items are not available from the Manufacturer. It is your responsibility to review the specifications in detail to ensure that you have outside sources of supply where necessary and the capability to fulfill the dealer installation for these items.
